

Home Renovation Savings Program – Attic Program Stream

Participant Terms and Conditions

I (the “Participant”), hereby agree to the terms and conditions set out herein (the “**Terms and Conditions**”) for the Home Renovation Savings Program – Attic Program Stream (the “**Program Stream**”), which is delivered by Enbridge Gas Inc. and the Independent Electricity System Operator (respectively, “**Enbridge**” and the “**IESO**” and collectively the “**Program Administrators**”) under the Home Renovation Savings Program (the “**Program**”). Under the Program Stream, participants who primarily space-heat their home with a furnace or boiler fueled by Enbridge-supplied natural gas, or who heat their home with electricity, wood, oil or propane and are connected to the IESO-controlled grid through an Ontario local electricity utility or distribution company (“**LDC**”) (excluding Cornwall Electric, whose customers are not connected to the IESO-controlled grid), may be eligible (subject to satisfying all Program Stream eligibility requirements) to receive a financial rebate of up to \$1,250 for upgrading attic insulation and of up to \$750 for upgrading the flat roof attic and/or cathedral ceiling’s insulation (a “**Rebate**”). Rebates may be provided for the purchase and installation of insulation in the attic, flat roof attic and/or cathedral ceiling (“**Qualified Measures**”) at the Participant’s home.

The Participant acknowledges and agrees that the Program Administrators may amend any Program Stream terms or requirements, including the Rebate amount, at their sole discretion and without prior notice to the Participant, at any time prior to Participant completing the Qualified Measures. The Participant must work with an insulation contractor that is designated as a participating contractor by the Program Administrators (“**Authorized Insulation Contractor**”) to be eligible for a Rebate. In addition, the Program Administrators may subcontract any of their respective responsibilities under the Program to a third-party service provider(s). Additional Program eligibility requirements (which, for certainty, are incorporated by reference herein and with which the Participant must comply at all times) are available at homerenovationsavings.ca/terms-and-conditions (the “**Additional Program Eligibility Requirements**”). The Additional Program Eligibility Requirements, including the Rebate amount applicable to the Participant, will be those in effect at the time of completion of the Qualified Measures.

IMPORTANT: Any false or misleading statement made by the Participant with respect to the Program Stream application (“**Application**”) process and eligibility may result in Program Stream ineligibility, Application cancellation, and/or disqualification from receiving or revoking of a Rebate. The Participant is solely responsible for (a) reviewing the Additional Program Eligibility Requirements, and (b) protecting the Participant against fraud.

The Participant acknowledges and agrees that:

- a) The Program Stream is funded and delivered by the Program Administrators, and is available to Ontario residents who (i) primarily space-heat their home with a furnace or boiler fueled by Enbridge-supplied natural gas at the time of completion of the Qualified Measures, or (ii) primarily heat their home with electricity, wood, oil or propane, where the electrical is connected to the IESO-controlled grid through an Ontario local electric utility (excluding Cornwall Electric, whose customers are not connected to the IESO-controlled grid), at the time of completion of the Qualified Measures.
- b) Submission of an Application and completion and signing of these Terms and Conditions does not constitute a commitment on the part of the Program Administrators to award any Rebate or other financial incentive to me.
- c) If I am eligible to participate in the Program Stream, at the time of completion of the Qualified Measures the maximum Rebate amount available to me is up to \$1,250 for upgrading attic insulation and up to \$750 for upgrading the flat roof attic and/or cathedral ceiling insulation. The amount of any Rebate which I may be eligible to receive shall not exceed 50% of the total actual cost incurred by me to complete the Qualified Measures, and the Program Administrators may reduce the Rebate amount (and in certain circumstances request a full or partial refund of any Rebate amounts previously paid to me) to ensure that the Rebate awarded to me does not exceed 50% of the total actual cost incurred by me to complete the Qualified Measures. For example, if the total cost incurred by me to complete the Qualified Measures is \$3,000, any Rebate awarded to me under the Program Stream will not exceed \$1,250.
- d) To be eligible for a Rebate under the Program Stream, in addition to complying with all other Program requirements set out herein and in the Additional Program Eligibility Requirements, I must complete my Qualified Measure by November 30, 2026. The Program Administrators reserve the right to disqualify me from participating in the Program Stream or receiving any Rebate, and permanently close my Application / Program Stream file if I do not complete the Qualified Measures by November 30, 2026.
- e) Rebates may be awarded to eligible participants starting August 5, 2025 until such time as Program Stream funding has been fully allocated, modified, terminated or exhausted, and no Rebate can be awarded, and no payment can be made, to any participant (including to me) under the Program if Program funding is fully allocated, modified, terminated, exhausted or otherwise unavailable (as determined by the Program Administrators in their sole discretion).
- f) Enbridge is entitled to claim the natural gas savings arising out of the Qualified Measures that are subject to a Rebate under the Program Stream for the purpose of reporting to the Ontario Energy Board and the IESO is entitled to claim the electricity savings and peak demand savings arising out of the Qualified Measures that are subject to a Rebate under the Program Stream.
